Professional Summary

Experienced professional with a diverse background in web development, network architecture, and construction. Proven ability to manage and execute complex projects, from disaster recovery network setups to large-scale door installations in commercial settings. Strong technical skills in full stack web development and network configuration, combined with hands-on experience in construction and private contracting. Excellent problem-solving abilities, team collaboration, and project management skills.

Professional Experience

Student - Full Stack Web Development Bootcamp
University of Utah
October 2023 – April 2024

- Acquired proficiency in HTML, CSS, JavaScript, Node.js, MySQL, MongoDB, React, GitHub, GitLab, Netlify, Render, and Heroku.
- Completed multiple projects demonstrating skills in front-end and back-end development.

Construction Worker
Grant Construction
January 2017 – October 2023

- Specialized in interior remodeling for youth hospitals across Utah and Salt Lake County.
- Performed duties including framing, flooring, door installation, concrete work, and access control installation.
- Worked as a sub-contractor for a commercial door company, traveling to various locations for large-scale door projects.

Network Architect
IBM (Sub-Contract)
June 2014 – July 2017

- Built, maintained, and documented disaster recovery network equipment in New York and Colorado.
- Configured and updated network equipment and participated in disaster recovery exercises.
- Created and maintained Visio drawings of network equipment.
- Gained experience with load balancing, Checkpoint Firewalls, and Cisco equipment.

Education

University of Utah
